Advised Letters.

Dec. 17, 1910.

Following is a list of letters remaining unclaimed in the post office at Montgomery City, Mo., and if not called for within two weeks from date, will be sent to the Dead Letter office:
Mrs. Effie Woods.

Wants To Help Some One.

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Suffering so long himself he feels for all distress from Backache, Nervousness, Loss of Appetite, Lassitude and Kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes, "wholly cured me and now I am well and hearty." It's also positively guaranteed for Liver Trouble, Dyspepsia, Blood Disorders, Female Complaints and Malaria. Try them. 50c at Crump & Kidwell's.

Married, Wednesday afternoon, Dec. 28, at the residence of the officiating minister, Rev. R. E. McQuie, in this city, Mr. Wm. P. Singleton of this community and Miss Flora J. Maupin of the Hopewell neighborhood. The happy couple will reside on the Sans Souci farm near this place. They have the best wishes of many friends.

Dr. Davidson OCULIST, OPTICIAN
at Mrs. Caruthers Hotel, every 3rd Monday (Stock sale day.) See him as he is up-to-date in his Specialty.

Ends Winter's Troubles.

To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold cores, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of Burns, Boils, Piles, Cuts, Sores, Eczema and Sprains. Only 25c at Crump & Kidwell's.

FINAL SETTLEMENT NOTICE.

NOTICE IS HEREBY GIVEN to all creditors and others interested in the estate of Clara C. Stewart, deceased, that J. W. T. Nardin Executor of said estate intend to make final settlement thereof at the next term of the Probate Court of Montgomery County, Missouri to be held at the Court House in the City of Montgomery, County of Montgomery and State of Missouri on the third Monday in January, 1911, to-wit January 16, 1911.

W. T. Nardin, Exr. estate of Clara C. Stewart.
(First Inst. Dec. 9th, 1910.)

IT IS SERIOUS.

Some Montgomery City People Fail To Realize the Seriousness Of A Bad Back.

W. I. Laird, Montgomery City, Mo., says: "Before I began using Doan's Kidney Pills, which I procured at Crump & Kidwell's Drug Store, I was greatly troubled by my back. My kidneys were also disordered and I suffered from attacks of Lumbago. The kidney secretions passed too frequently, contained a sediment and were at times painful when being voided. I was much run down in health and felt miserable at the time Doan's Kidney Pills were brought to my attention. They gave me prompt relief and I am now without a symptom of my former trouble." (Statement given in June 1906.)

On November 14, 1908, Mr. Laird confirmed the above statement. He said: "The testimonial I gave two years ago in favor of Doan's Kidney Pills was correct in every detail. I gladly give Doan's Kidney Pills the credit for my continued freedom from kidney trouble."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

BOSTON MAN WAS MUSICAL

Must Have Been, for He Found Nothing Good in Opera Performance in Paris.

"Americans have to have a lot of nerve when they're abroad," said the man who had just returned from his first foreign trip. "I fell in with an American at the Grand hotel in Paris who was on his way to the opera, and, as I was of the same mind, we started together."

"Although it was a fearfully hot night we found the opera house packed—the French, you know, are great on opera."

"Who were the singers?" asked a listener.

"Oh, I don't know—it was a third-rate performance."

"Well, we tried hard to get seats and couldn't—not a thing to be had."

"Wait," said my American friend; "I'll be back in a few minutes—I think I can get some tickets," and he returned very soon, waving two tickets aloft while, as it turned out, were complimentary. To obtain complimentary tickets on a night like that was a master stroke. The French would have called it—

"Coup d'état!" suggested some one.

"Tou de force!" said another, but no one was quite certain, so he continued:

"He had represented himself to be a director of the Metropolitan Opera company."

"Did he live in New York?" inquired another listener.

"No—Boston—but he was very musical—at least, I think he must have been, for while I sat enjoying the performance immensely he was exclaiming from time to time, 'Rotten! Hear that tenor! That soprano's awful!'"

Boston Herald.

SOLUTION OF LABOR PROBLEM

Plan Suggested Requires Establishment of National Unit of Value for Work.

It should be beyond the power of either party (that is, labor and capital) to fix the wages for any specified class of work. As before suggested, it is a matter to be determined impersonally and automatically, and this only can be done by the establishment of a national unit of value for labor, upon which all wages shall be computed with the same universality of application as now inheres in the established tables of weights and measures. Necessarily, such a unit of value for labor must be not only a fixed entity in relation to rates of wages, but must at the same time be susceptible of accommodation to economic changes, so that the money value of wages shall keep pace with fluctuations in the cost of living. It follows, therefore, that the unit upon which the federally established table of wages shall be built must be chosen with respect to some commodity that is so universally used and of so far-reaching an influence that its market price indexes and measures the cost of living in all walks of life.—North American Review.

How to Avoid Cholera.

A cheerful disposition is held by some doctors to be the best protection against cholera. When this disease first visited Paris, in 1832, a notice was issued advising the inhabitants "to avoid, as far as possible, all occasion of melancholy and all painful emotions, and to seek plenty of distractions and amusements. Those with a bright and happy temperament are not likely to be stricken down." This advice was largely followed, and even when cholera was claiming over a thousand weekly victims, the theaters and cafes were thronged. The epidemic was in some quarters treated as a huge joke, and plays and songs were written round it. Rochefort, the father of the brilliant journalist of today, wrote a play, "Le Cholera Morbus," which proved a big success, and another production on the same lines, "Paris-malade," also had a long run.—London Chronicle.

First to Find Gold in America.

North America has counted as a gold-producing continent only since the late '40's. But it might well have done so for nearly 200 years. According to the London Chronicle, in the voyage round the world which began in 1719 the privateer Capt. Shelvocke, found in certain California valleys "a rich black mold which, as you turn it fresh up to the sun, appears as if intermingled with gold dust. Though we were a little prejudiced," he adds, "against the thought that it could be possible that this metal should be so promiscuously and universally mingled with common earth, yet we endeavored to cleanse and wash the earth from some of it, and the more we did the more it appeared like gold. In order to be further satisfied I brought away some of it, which we lost in our confusion in China."

Chas. H. Muns of Kansas City was the guest of home folks here the first of the week.

Mrs. Virginia Fisher of St. Louis visited her brother, Dr. Geo. E. Muns, and family here this week.

Harry Bell, a young man who was confined in the jail here on a charge of house-breaking, and who escaped Friday at noon by digging his way out from the basement, was captured at St. Charles the next day and has been returned to the county bastille in this city.

Jas. W. Gibson, aged 66 years, 9 months and 18 days, died at his home in this city Wednesday, Dec. 28, 1910, about 11 o'clock a. m., after a short illness of pneumonia. He is survived by his wife and four children. The funeral will be conducted at the residence today, Friday, and interment in the city cemetery.

Earliest Spectacles.

The ancient Guild of Spectacle Makers, which is licensed at a recent London County Council leaflet, is numerically one of the strongest of the city companies. Its charter dates from the year 1629 and, though the exact date of its origin is lost, there is ample evidence that the calling of spectacle maker was extensively followed at a very early date. An old book of 1563 mentions the spectacle makers among other trades, and the biography of Carlo Zeno, an illustrious Venetian, who died in 1418, mentions that even at the age of eighty-four he needed no artificial aids to his sight. So presumably spectacles were common in Italy some five centuries ago.
